## INDUSTRY MONTH - FEBRUARY 2016

Industry Month is a programme of events, conferences and activities delivered by Newcastle Academic Health Partners throughout February aimed at, and in partnership with, healthcare and life science companies. Newcastle Academic Health Partners harness clinical and academic expertise to make sure patients will benefit sooner from new treatments, diagnostics and prevention strategies. The partnership brings together the Newcastle upon Tyne Hospitals and Northumberland, Tyne and Wear NHS Foundation Trusts with Newcastle University.

### PROXIMITY TO DISCOVERY INDUSTRY THEME WEEK

#### Lewy Body Dementia: A View from the Bridge

Mon 1 - Wed 3 Feb 2016

#### Newcastle University Medical School

The Lewy Body Dementia (LBD) programme aims to explore novel diagnostic and therapeutic approaches to LBD. It will include interactive lectures, clinical demonstrations, facilitated time with patients and carers, and demonstrations of Newcastle's capabilities and facilities to support research in human movement science, neurophysiology, imaging analysis and neuropathology.

#### Dermatology and Rheumatology

Mon 8 - Fri 12 Feb 2016

#### Newcastle University Medical School

The Dermatology week-long programme encompasses lectures on Newcastle's dermatological research, meetings with researchers, specialist clinic visits and discussions with patients and clinical staff. The Rheumatology programme will demonstrate Newcastle's expertise in musculoskeletal research through activities including seminars by academics and clinicians, meetings with patient groups and visits to specialist clinics.

### ADOPTING MEDTECH FOR PATIENT BENEFIT 2016

#### NIHR Diagnostic Evidence Co-operative

Thur 11 Feb 2016

#### Centre for Life

This day-long event will enable the MedTech sector to engage with clinical and academic expertise from across the NHS and Newcastle University.

The event will be delivered by the NIHR Diagnostic Evidence Co-operative Newcastle, and the Newcastle Hospitals' Medical Physics Team. Learn about the support and advice available, and meet experts on a one to one basis.

### INDUSTRY ENGAGEMENT DAY

#### NIHR Clinical Research Facilities

Fri 12 Feb 2016

#### Centre for Life

The conference will focus on the delivery of early phase clinical research. The day will include keynote talks from Principal Investigators who are conducting early phase research with Industry. We will hear the views and recommendations of Industry and about the national role of the NIHR Office for Clinical Research Infrastructure (NOCRI). Workshops will focus on the systems and structures available to promote collaborations between Academia, Industry and the NHS.
