FIRST CALL FOR ABSTRACTS

The theme for this year’s 2019 HaSS Annual Postgraduate Research Showcase is “INNOVATION & IMPACT”.

When preparing your abstract, please consider explaining:
• What is innovative about your research?
• What makes your research impactful?
• How you might communicate and present your work beyond the “bubble” of academia?

This year’s showcase seeks to engage in this process through the visual presentation of research work from across the many schools in the faculty. The showcase encourages alternative visual methods for presenting research which may include:

• Posters (A1 laminated posters)
• Installations
• Video displays
• Performance
• Exhibition of artwork

We encourage participants to ‘think outside the box’ with how they present their work. The organising committee will do everything reasonably possible to facilitate different presentation methods (covering any reasonable expenses to facilitate your participation - colour poster printing and lamination, help with material or equipment hire for installations, etc.). For any enquiries, please email us at hass.showcase@newcastle.ac.uk.
This year’s showcase will be from 1:00 pm to 6:00 pm and will close with a reception and awards ceremony for best presentation. At submission you will have the choice to submit a short video (max three minutes) along with your poster or presentation pitching their research innovation, rigour and impact, as part of our “Innovation and Impact Challenge”.

Faculty offers substantial trainings in communicating and preparing eye-catching presentations and will strive, within reason, to provide any logistical support you might require (poster board hire, ICT equipment, poster printing, etc.).

Book your place on the NCL Workshops website [https://workshops.ncl.ac.uk](https://workshops.ncl.ac.uk). You can search for the following related workshops by title:
